Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

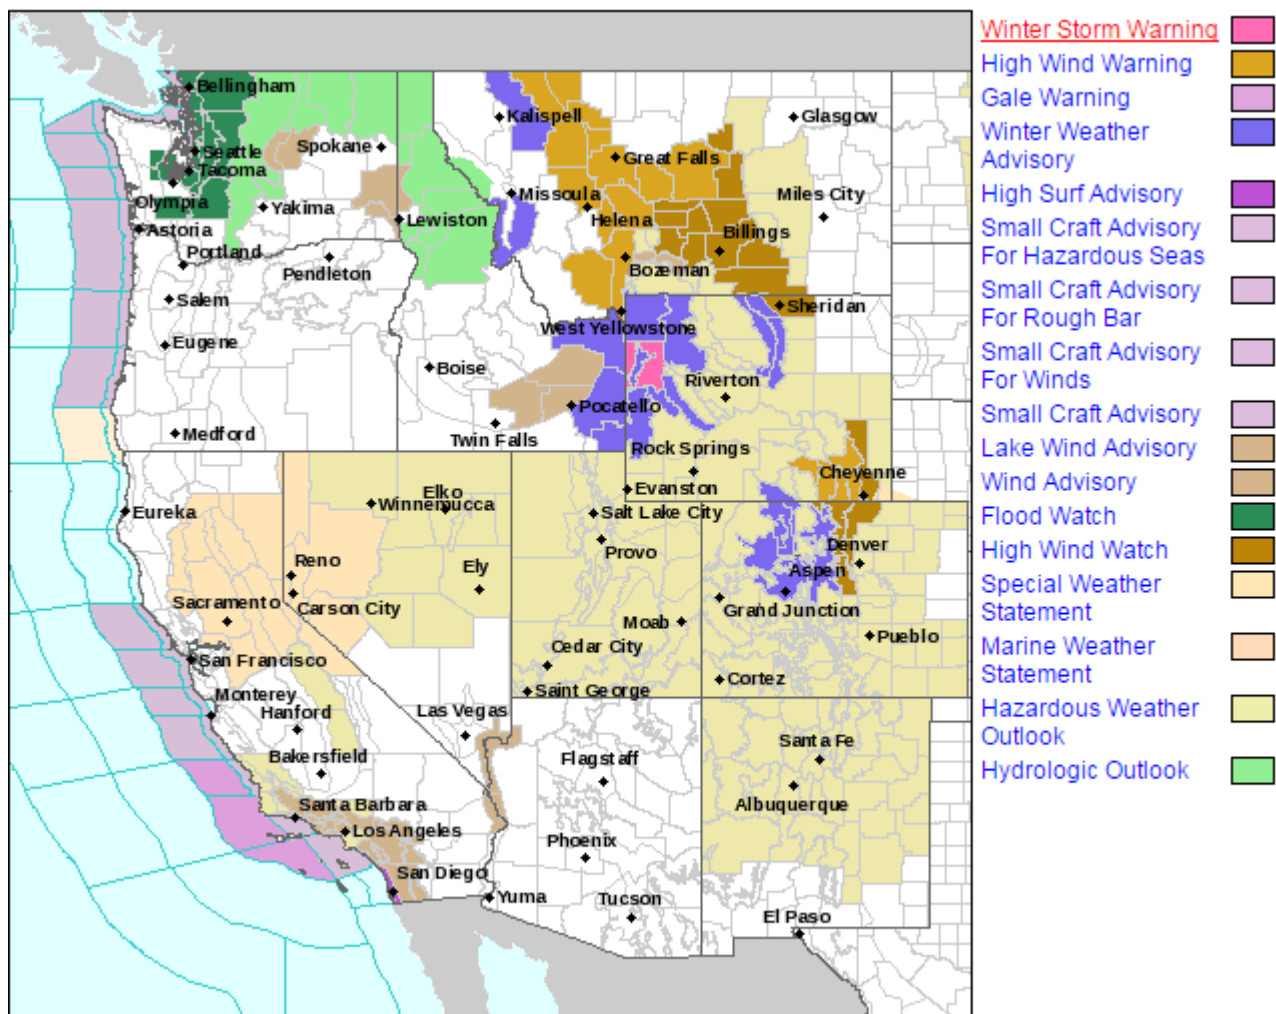

NORTHERN CALIFORNIA

Very warm temperatures are expected this holiday weekend, peaking Monday through Tuesday. Record high temperatures will be possible during this warm stretch; however, after this extended dry period, wetter weather is likely to return Wednesday and Thursday this week. This is an average storm by February standards, with the primary impacts likely to Sierra travel. The storm will bring several inches of snow to the Sierra Nevada above 7,000 feet. There is potential for a foot or more of new snow over the highest elevations of Yosemite National Park by midday Thursday. Snow levels will lower to about 5,000 feet by the time the storm exits into the Great Basin late Thursday morning but will remain above pass level in the Tehachapi mountains. Rain will fall in the lower elevations. Gusty winds associated with this storm will buffet the highest elevations of the Sierra and the Kern County mountains and desert Wednesday afternoon through Thursday.

SOUTHERN CALIFORNIA

After a period of gusty north winds tonight into early Sunday following the passage of a weak upper-level trough, Santa Ana winds will start to develop late Sunday as surface high pressure builds into the Great Basin. High pressure will build aloft as well, bringing another period of unseasonably hot and dry weather to Southwest California between Sunday and Tuesday. High temperatures on these days will likely range from the mid to upper 80s and low 90s for many coastal and valley areas. Many record highs will be threatened once again. The hot weather will bring an increased risk of heat-related illnesses, especially for the elderly, those participating in the LA Marathon, and anyone performing strenuous outdoor activities. Gusty Santa Ana winds and relative humidity values in the teens will also result in elevated fire danger, with late Sunday night into Monday being the period of strongest winds and greatest fire weather concern.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

CAL OES MISSIONS

Closed Missions:

- **2016-LAW-21372, 2/12/16, 1412 hours**, Sacramento County Sheriff's Department, on behalf of the San Joaquin County Sheriff's Office, is requesting the DART Team from Sacramento County for a search in San Joaquin County. DART members will be searching a canal on 02/13/16 for a weapon used in a homicide that occurred in Walnut Grove. **Update: 2/13/16, 1351 hours** Sacramento County DART Team leader advised their search was complete and they were enroute to their home station. The team searched for several hours, but was unable to locate the weapon in question. There are no plans to use the DART team for any further searches associated with this case. **Mission Closed.**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
